CERTIFICATE II IN ELECTROTECHNOLOGY (CAREER START)

VET qualifications are recognised nationally and are developed with industry consultation and for industry-specific requirements.

This course is for students looking to develop employability skills, real life experience in the workplace and time out of the classroom getting on-the-job training in electrotechnology.

VET Course

- This course is a 300 hour course studied over 2 lines.
- Students can receive up to 45 points towards their TCE attainment on successful completion of the course.
- It is a demanding course requiring high levels of numeracy, literacy and ICT and a strong work ethic in order to complete outstanding tasks as homework.

FEATURING:

- Real life experience in the work place
- CPR training
- Safe use of a range of electrical tools and measurement devices
- The White Card (required for entry to all work sites)
- Excellent online training resources through Energy Space
- Undertake typical household wiring and installations
- Excursions to organisations which supply our electricity
- Work with new people, make friends and contacts
- Gain a variety of real life experiences while developing people skills.

AND ONGOING TO

Electrotechnology apprenticeships/traineeships or employment in the trades sector. Examples include electrician, electronics and communications technician, refrigeration and air conditioning, data cabler, electrical linesperson.

CERTIFICATE II IN ELECTROTECHNOLOGY (CAREER START)

Unit code	Unit name
UEENEEE101A	Apply Occupational Health and Safety regulations, codes and practices in the workplace
UEENEEE104A	Solve problems in d.c. circuits
UEENEEE141A	Use of routine equipment/plant/technologies in an energy sector environment
UEENEEE148A	Carry out routine work activities in an energy sector environment
UEENEEE179A	Identify and select components, accessories and materials for energy sector work activities
UEENEEK142A	Apply environmentally and sustainable procedures in the energy sector
HLTAID001	Provide cardiopulmonary resuscitation
UEENEEE130A	Provide solutions and report on routine electrotechnology problems
UEENEEE143A	Produce routine tools/devices for carrying out energy sector work activities
UEENEEP024A	Attach cords and plugs to electrical equipment for connection to a single phase 230 Volt supply
CPCCWHS1001	Prepare to work safely in the construction industry
